VICTORY TOWER - CHITTAURGARH

The Vijay Stambh also known as the Victory Tower is the indomitable pride of Chittaurgarh. The whole structure is covered with exquisite sculptures of Hindu deities which depict episodes from the two great epics, the Ramayana and the Mahabharata.

The Vijay Stambh was constructed by Maharana Kumbha in 1440 AD. To commemorate his success over combined armies of the kings of Malwa and Gujarat. This tower has a height of 120 feet and diameter of 30 feet at the base with nine storeys. This significant monument is a fine example of Rajput architecture.

FOREWORD

1. The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1st.phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15th. July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)-Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Mrs. Shubhra Singh, the then Joint Secretary & Director of Census Operations, Rajasthan. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

PREFACE

The District Census handbook (DCHB) is brought out in each decennial census since 1951 containing Village and Town Directory, Village & Town wise Primary Census Abstract (PCA) and data on “amenities” for each village and town in the district. The objective of publishing the DCHB is to place the data collected at census along with the data on amenities at Village and Town level, collected from Tehsildars/Municipal Commissioners.

The District Census Hand Book contains two parts i.e., Part A & Part B. Part A contains Village and Town Directory and Part-B contains data on Village and Town, Primary Census Abstract along with Housing amenities. This time both Part-A and Part-B volumes has published separately for each district. The present volume deals with the Part-A of the DCHB, It is my pleasure to present this publication DCHB Part-A pertaining to the Village and Town Directory of the District as per Census 2011. It is a synopsis of the development made by the District in the past decade and the challenges ahead.

As a result of the implementation of the various development plans; whatever development is achieved such as development of infrastructure facilities as well as availability of basic amenities e.g. educational, medical, drinking water, sanitation, communication, transport, banking, electricity, land use, irrigation and manufacturing etc. is reflected in the Handbook.

The data presented in this Handbook were collected through Village Directory and Town Directory Schedules, Census of India, 2011. The schedules were sent to tehsils for collection of the data of every village and Census Town and to Municipalities, Municipal Corporations and Cantonment Board for collection of data of Statutory Towns of the district. The information in the schedules was reported, filled and verified by Village Officer/ Patwari/ Village Panchayat Pradhan/ Gram Pradhan/ Sarpanch/ Tehsildars for Villages and Census Towns; and by Town Census Officer/ Executive Officer (E.O.)/ Commissioner/ Deputy Commissioner for Statutory Towns. The filled-in Schedules were received by post in the Census office and after digitization, validation and finalization of the data, present volume is presented.

Rajasthan is the largest State in the country, with difficult terrain comprising desert, forests, mountains, tribal belt, ravines and a long international border. It also has typical hard to reach population groups. I am deeply indebted to the State Government of Rajasthan for their unstinted support and cooperation at all stages of Census Operations of

2011. I am grateful to the Chief Secretary, Principal Secretaries, District Collectors, Municipal Commissioners, Tehsildars and senior officials of the Government of Rajasthan for their co-operation and assistance throughout the Census Operations and in the process of collection of the Secondary data.

I am deeply grateful to Dr. C.Chandramouli, Registrar General & Census Commissioner, India for his unstinted support and spontaneous, unfailing guidance throughout our endeavours and bringing out this publication. My grateful thanks to Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl. RGI, Dr. Pratibha Kumari, Assistant Registrar General (SS), Shri A.P. Singh, Deputy Registrar General (Map), Shri M.S.Thapa, Addl. Director (EDP), Shri A.K. Arora, Joint Director (EDP), Shri A.K. Srivastava, Joint Director (EDP) and their colleagues at the headquarter office for their ever willing, helping hand and thoughtful suggestions for putting together and shaping the volumes in their present form.

The Joint Secretary & Director of Census Operations, Rajasthan, Ms. Shubhra Singh, under whose able direction and guidance the entire operations were carried out deserves all credit for its success, but she was repatriated to the Government for taking up some other important assignment before this volume could be made available for the release.

Dr. Pulkesh Sharma, Assistant Director, Incharge of Village Directory & Town Directory and District Census Handbooks, coordinated the work with his team of devoted workers; contributed immensely with determination and dedication to the cause of digitization, validation and finalization of Village and Town Directories and preparation of District Census Handbooks, Census, 2011 in the stipulated time limit, deserves all appreciation. I also acknowledge all officers of the task force for DCHB for preparing the analytical notes.

The members of the staff in the Map Section did a commendable job under the guidance of Shri R.S. Tyagi, R.O. (Map) in bringing out various maps. The names of individuals associated with this project are shown in 'Acknowledgement'. I am grateful to all of them.

I hope that the data users will find this publication very useful.

HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA

for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i)-Status and Growth History of towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

BRIEF HISTORY OF THE DISTRICT

The antiquity of Chittaurgarh is difficult to trace, but it's believed that Bhim the legendary figure of the Mahabharata, visited this place to learn the secrets of immortality and became the disciple of a sage, but his impatience to perform all the rites deprived him of his goal, and out of sheer anger he stamped on the ground creating a water reservoir, this reservoir is called as Bhim Lat. Later on, it came under Mauryas or Muri Rajputs, there are different opinions as to when it came under the Mewar ruler, but it remained the capital of Mewar till 1568, when it was shifted to Udaipur. It's believed that Bappa Rawal the legendary founder of Sisodia clan, received Chittaurgarh in the middle of 8th century, as a part of the dowry after marriage with 1st Solanki princess, after that his descendants ruled Mewar which stretched from Gujrat to Ajmer, upto the 16th century.

The fort A standing sentinel to the courage and valour of Chittaurgarh, it stands tall over a 180 meter high hillock covering a massive area of 700 acres. The fort is believed to have been built by the Maurya rulers in 7th century A.D. The fort is a treasure house of history and historical monument; the approach to the fort is very difficult. The one mile steep serpentine though fare is exhaustive and the fort is reached through huge seven pols or gates, which are in fact the strong points having a watch tower and massive iron spiked doors. It was ravaged thrice, and each time phoenix like it rose again. Allaudin Khilji was the first who invaded Chittaurgarh in 1303, legend and history corroborate that this was because of his passionate desire to abduct Rani Padmini.

But she preferred death to dishonour, and committed Jauhar along with the other ladies of the court. Chittaurgarh was plundered again in 1535 by Sultan Bahadur Shah of Gujrat and finally by the Mughal Emperor Akbar, in 1567, in an attempt to subdue Maharana Uda Singh.

The fort is approached through massive pols or gates. Near Bhairon Pol, is a cenotaph or "Chattri" in honour of the chivalrous Jaimal and his cousin Kala, who laid down their lives whilst defending Chittaurgarh against the Mughals. Jaimal who was carried seriously wounded, but was not ready to die in his bed, thus he was carried into battle on the shoulders of his cousin Kala, both of them died while showing exemplary courage.

At Rampol is a memorial to Phatta, who was only 16 years old and had just been married, his father has already died defending Chittaurgarh, and was sent into the battle by his mother, to free her son from any affection towards home she herself picked up a sword along with his bride and jumped into the battle field both of them died in front of Phatta. Next day the women folk of the palace ended their lives by committing Johar. Phatta leading the saffron robed men from the front thundered down like lightening from the mighty fortress to die fighting. The other major gates are Pada Pol and Hanuman Pol, with a distinct Rajput style of architecture.

The district is named after the town of Chittaurgarh, which is the headquarters of district administration. The district in its present shape was carved out of the various erstwhile princely territories, namely the portions of Mewar State, Pratapgarh State, Nimbahera district of Tonk State, 79 villages of the former Madhya Bharat and five forest villages of Jhalawar State. The district, initially with headquarters at Nimbahera, was formed on the 1st August, 1948, comprising the tehsils of Nimbahera, Dungla, Bhadesar, Kapasan, Rashmi, Chittaurgarh and Kanera. In February, 1949, tehsil Kuakhara was also transferred to this district. Later on a new tehsil Gangrar was formed and the headquarters of tehsil Kuakhara were shifted to Bhainsrorgarh. The district was again re-organised at the time of formation of Rajasthan by adding Pratapgarh, Achnera and Chhoti Sadri tehsils and Nimbahera was made the district headquarters. In 1950, the district headquarter was shifted to Chittaurgarh. On 25-01-2008 State government has transferred Pratapgarh, Chhoti Sadari and Arnod tehsils to form a new district Pratapgarh.

ADMINISTRATIVE SETUP

Chittaurgarh district is one of the six districts, those comes under Udaipur division. District Collector is head of the district for revenue, Law and order matters. District Collector & District Magistrate is the head of District Administration.

For administration and development, the district is divided in Sub-Divisions and tehsils (sub-districts). The District Chittaurgarh has 10 sub-divisions. Each of the sub-divisions is headed by a Sub-divisional Officer (SDOs) / Magistrates, the officers are responsible for implementation of law and order matters in their respective sub-divisions.

There are 10 Tehsil headquarters in Chittaurgarh district and each one has a Tehsildar as an administrative officer who works in accordance with the Land Record System to serve for the rural farmers and land holders and is responsible for maintaining the revenue matters in their respective tehsils.

For the purpose of the implementation of rural development projects/ Schemes under Panchayati Raj System, the district is divided in the 11 Panchayat Samitis (Blocks). Block Development Officer or Vikas Adhikari is the Controlling Officer of each of the Panchayat Samiti to serve as extension and developmental executive at block level. The compositions of Panchayat Samities are as follows:

Sl. No.	Name of Panchayat samiti	No. of Gram Panchayat	No. of Villages	Tehsil(s) (No. of Villages)	Census Towns

ANALYTICAL NOTE

ANALYTICAL NOTE

LOCATION AND SIZE

In term of location the district is located between 24° 13' and 25° 51' north latitudes and between 74° 04' and 75° 53' east longitudes. The district is bounded on north by Bhilwara and Bundi districts, on the east by Kota district and the State Madhya Pradesh, on the south by Pratapgarh, Madhya Pradesh State and on the west by Udaipur and Banswara districts of Rajasthan State. The total area of the district is 7822.00 sq. km. as against the total area of 342239 sq. km. of the state. It ranks 16th among the districts in respect of area.

PHYSIOGRAPHY

The topography of the district is generally undulating but the hills belonging to the famous Aravalli range are scattered all over the area. The western, southern and northern parts of the district are to some extent plain. Bhainsrorgarh area in the east is practically hilly excepting some portion which is plain but is surrounded by hills. The district gently slopes from south to north, the height varying from 317 meters to maximum 617 meters at Palkhera. The slopes of the hills are gentle and steep and are wooded.

DRAINAGE

The rivers, which flow through the district, are Chambal, Banas, Berach and while Wagan, Gambhiri, Bamani (Brahmani) and Gunjali are their tributaries. The district is devoid of any natural or artificial lake. However, a number of tanks, big and small, are maintained by Irrigation Department and are used for irrigation purposes.

CLIMATE

The maximum & minimum temperature recorded at Chittaurgarh centre during the year 2011 was 45.8° C and 2.3° C. The normal rainfall in the district is about 841.5 mm. while actual rainfall at the district headquarters during the year 2011 is 861.0 mm. The climate of this district is generally dry except during the south west monsoon season. The duration of cold season is from December to February, while that of summer from March to the third week of June. The south west monsoon season this follows thereafter lasts till about the middle of September. The meteorological observatory set up at Chambal dam registers the data of temperature for the district.

The suitability of climate for the field work is in the months of July, October and March.

TEMPERATURE

The following table shows the unevenness in the temperature-

Year	Temperature (in ° Celsius)			Humidity percentage
	Maximum	Minimum	Mean	
2007	44.6	3.4	25.9	56

MINERAL AND MINING

The following are the important minerals available in the district. The Western part of the district exposes the oldest rocks comprising states, phyllites, mica schists which intercalated bands of dolomites, uartzite and igmatites belonging Aravalli deposits back to over 2500 million years. These rocks have

been intruded by the berach granite. These were later eroded and leveled before the sedimentation of Vindhyan rocks commenced about 1400 million years ago under shallow water condition proceeds by volcanic activity as evident by the and estfic lara follows in the kharmalia area. The Vindhyan rocks of this area forms part of the great Vindhyan basin extending from Rohbas in Bihar to Chittaurgarh.

The district is endorsed with mineral resources. The minerals included barytes, china clay, limestone, sand stone, ochre's.

SOIL

The major soils found in the district and their percentages are shown below:

Major Soils (common names)	Area ('000 ha)	Percent (%) of total
Black clay medium to deep soil	302.98	29.25
Brown clay loam deep soil	216.49	20.9
Red gravelly loam shallow hilly soil	429.56	41.47
Red loamy medium soil	24.44	2.36
Brown clay gravelly shallow to medium soil	33.14	3.2

Source: Agriculture Contingency Plan, Dept. of Agriculture Cooperation & Farmers welfare, Govt. of India.

Soil is one of the important factor affecting land in general and transportation on land in particular. Maize is grown in black clay medium to deep soil. Soya bean and maize are grown in brown clay loam deep soil, in red loamy medium soil wheat, groundnut and mustard. Soil is one of the important factor affecting land in general and transportation on land in particular. All types of soils in the district are deep to moderately deep.

FOREST, FLORA & FAUNA

The total area of the district is 10856 Sq. Km. about 1793.41(16.52%) Sq. Km. of the total reporting area of the district was under forest during 2010-2011. The entire forest area in Chittaurgarh district may be broadly divided into two zones viz., the Dhokra Zone and the Teak Zone. The Dhokra Zone confines to the north and comprises six forest ranges of the Chittaurgarh division Viz., Bhainsrorgarh, Kuakhera, Bijaipur, Begun, Chittaurgarh and Nimbahera. It is estimated that nearly one third of the forest area of the Chittaurgarh forest division falls in Dhokra zone. The Teak Zone confines to the south of the district and consists of teak forest classified as 'Dry Teak'. The three forests ranges namely, Pratapgarh, Deogarh and Chhoti Sadri fall in this Zone. The forest area in this district has been categorised as 'Reserved', 'Protected' and 'Unclassified'. However the State Government has permitted the inhabitants of this area to use forest products for minor domestic purposes.

The flora of the district has a large variety and among the common trees found are Dhokra (*Anogeissus pendula*), Babul (*Acacia arabica*), Aam (*Mangifera indica*), Bargad (*Ficus bengalensis*), Gular (*Ficus glomerata*), Jamun (*Syzygium cumini*), Khair (*Acacia catechu*), Khejri (*Prosopis spicigera*) and Bans (*Dendrocalamus strictus*). In the valleys and along streams where the soil is deep and rich the crop generally consists of Bahera, Manua, Kalam, Safed Siris, Paras Pipal, Karanj, Gular, Dhak, Tendu, Naupatti etc.

The better known animals which are usually spotted in the thickly forested ranges of Bhainsrorgarh, Kuakhera, Begun, and in some of the parts of Chittaurgarh range are tiger, bear, hyaena, wolf, sambhar, deer, pit, neelgai etc. Panther is found in the entire district due to its adaptability to varied surroundings. The small animals such as fox (*Vulpes bengalensis*), hare (*Lepus*

ruficandatus), jackal (*Canis aurens*), squirrels (*Gunarubulus pennandi*), Porcupines (*Hystrix lencura*) are found throughout the district. The wild dog locally known as 'Kona' is mainly confined to some parts of Chittaurgarh forest range. The enforcement of rules framed under the Rajasthan Animals and Birds Protection Act, 1950 has resulted in checking unlawful activities of poachers and preservation of wild animals whatever available in the area. In 1971, a wild life sanctuary was established at the Chittaurgarh fort in its southern portion for development of wild life.

There is no bird sanctuary in the district but many species of birds are seen in the district. Wild birds are mainly confined to the sits of old shooting lodges of the former rulers and densely forested areas.

Chittaurgarh district has many rivers and tanks which are helpful in preserving a varied aquatic fauna. In rainy season the rivers, which are either connected or drained by nallahs, are ideal breeding ground for fishes. Crocodiles are also found in the district in Borda dam, Gambhiri dam, Orai dam, Bankia dam, Bamani, Chambal and Gunjali Rivers. Both types of snakes poisonous and non-poisonous are commonly found in the district.

Soil is one of the important factor affecting land in general and transportation on land in particular. All types of soils in the district are deep to moderately deep.

LAND UTILIZATION

The utilization of land depends upon physical factors like topography, soil and climate as well as upon human factors such as the density of population, duration of occupation of the area, land tenure and technological advancement of the population. There are spatial and temporal differences in land utilization due to the continued interplay of physical and human factors. The land utilization of the district is as follows –

Land Utilization (Area in Hectares)	2008-09	2009-10	2010-11

CROPPING PATTERN

Kharif and Rabi are the main crops in the district. Among Kharif crops, locally called 'Siyalu', are included maize, jowar, cotton, pulses, groundnut, sugarcane and rice; while the Rabi crops consists of wheat, barley, gram, oilseeds, methi, alsi, dhanian and opium. The third crop 'Zayad' is also grown when vegetables like brinjals, cucumbers and water and musk melons are raised in river beds during the summers.

As per statistics available for the year 2010-2011, the cultivable land and the area sown in the district are as following.

S.No.	Details of land	Area (in Hectares) 2010-2011
1	Culturable land	515511
2	Gross area sown	520331
3	Area sown more than once	206984
4	Net area sown	313347
5	Gross Irrigated area	199273

Source: Basic Statistics Rajasthan 2013 (DES, Govt of Rajasthan), Culturable land includes culturable waste, permanent pastures and other grazing land, current fallow, net area sown and Fallow land other than current Fallows.

Details of crop-wise sowed area and production for the year 2010-11 is given below :

The red and black soil of Chittaurgarh district is very fertile in growing Maize, soya bean, cluster bean, sorghum, groundnut, sesame, black gram etc. Black and brown soils also help in growing taramira, gram, mustard, vegetables and fruits. All types of material for grazing/feeding for livestock is also grown.

IRRIGATION

In some parts of the district irrigation is done through tube wells .The area irrigated by different means of irrigation in 2010-11 in the district is as given below, figures in the brackets indicate the percent of area irrigated by difference sources to total area irrigated in that category:

Means of irrigation	Irrigated Area (in hectares)	
	Gross Area	Net Area

The total net irrigated area during 2010-2011 was 187138 hectares, which constituted 93.91 per cent of total net area sown in the district

ANIMAL HUSBANDRY

According to the livestock Census 2007 the total livestock population was 1973967 in the district. Following is the distribution of livestock according to the livestock Census of 2007 :

S.No.	Name of cattle	Number (year 2007)
1	Cows-Bullock	720902
2	Buffaloes	474300
3	Sheep	79951
4	Goats	686401
5	Camels	2869
6	Pigs	6963
7	Horses-Ponies	1122
8	Donkeys-Mules	1459
Total Animals		1973967
Total Poultry		116990

Source: 18th Livestock Census 2007, Govt. of Rajasthan.

Camels are mainly useful in cultivation which is being used for pouching and transportation of agricultural produce. Horses, Donkeys and Mules are being used in urban areas for short distance transportation and as goods carrier. Cows, Buffaloes & goats are mainly used for milk production for own consumption and sale. Cows of Jersi breeds are mainly found in the district whereas buffaloes of desi breed are found. Goats and sheep are mainly reused for production of wool and meat. Rearing of pigs is done for meat. Poultry rearing is done for eggs and meat. Consumption of eggs, meat and milk is done in the district itself.

FISHERY

Total water resources available for fisheries in the State are 15838 no. of water bodies covering an area of 4,23,765 hectare excluding rivers and canals (30,000 ha.) and water logged area (80,000 ha.) at Full Tank Level (FTL). Out of this 1080 water bodies having an area of 37593 hectare at FTL is available in Chittaurgarh district. It is almost 8.87 percent of the state area at FTL. The district has 18797 hectare Effective Water Spread Area (EWSA) which makes the basis for all development planning. The detail of the available water bodies & area is as follows –

Small Tanks & Ponds (<1 ha)		Medium Tanks & Ponds (1.1-10 ha)		Large Tanks & Ponds (10.1-100 ha)		Small Reservoirs (101-1000 ha)		Medium Reservoirs (1001-5000ha)		Large Reservoirs (>5001 ha)

The district has produced 3451 MT fish in 2009-10, 4105 MT fish during the year 2010-11 and 3136 MT in 2011-12

Various varieties of fishes are found in the rivers and tanks in the district of which *Mystus singhala*, *Wallago attu*, *Mystus cavassius*, *Labeobata*, *Channa marulius* and *Cirrhinus reba* are the most commonly known fishes. The variety of fishes found in the district in the year 2010- 2011 are major craps, cat- fish, minor carps and other.

TRANSPORT AND COMMUNICATION

National Highway NH 8 passes through the district. It is on Delhi-Ahmedabad route, Ratlam-Chittaurgarh highway and other state highways also. Major district roads and other district roads, approached road, Roads to Mines and Quarries are in the district.

The total length (in Km) of different type of roads maintained by the state public works department in the district as on 31st March 2011 is –

GRAM PANCHAYATS COMPOSITION & ITS ROLE

The system of Panchayati Raj was inaugurated on 2nd October 1959 in Nagaur district by then Prime Minister Late Shri Jawahar Lal Nehru. Late Shri Balwant Rai Mehta proposed the recommendation for Panchayati Raj. There are three levels of Panchayati Raj:

- (a) Gram Panchayat (Village level)
- (b) Panchayat Samiti (Block level)
- (c) Zila Parishad (District level)

Gram Panchayat is an important institution of self-government. The institution is set for a village or village agglomeration. A Gram Panchayat is created on 2000-8000 population. It covers a maximum area of 6 miles. The villages, which have population below 2000, are merged with the other villages to create a Gram Panchayat. Their tenure is of 5 years.

A Gram Panchayat consist 5 to 20 members. The Head of the Panchayat is called Sarpanch. Panch and Up-Sarpanch are also elected. It includes a member belongs to backward class and a lady member. There is 281 Gram Panchayats in the district.

The main objectives of Gram Panchayat are to arrange the primary education, sanitation of public places, drinking water and light. It manages also the adult education, livestock and repairing of wells.

SOCIAL AND CULTURAL ACTIVITIES

The entertainment sources are folk dances, organization of dramas and arrangements of various types of in-door & out door games. Various Institutions are engaged in imparting training in classical music and dramas etc. Folk dances are usually organized at the changing seasons. Traditional painting classes are also held in the vacations. Meera Mahotsav is organized in a year.

FAIRS AND FESTIVALS

A number of fairs are held in the district. The principal ones are given below:

Mahadeoji-ka-Mela : This fair is held at Matri Kundia in tehsil Rashmi on Vaisakha Purnima (April- May) annually. Nearly 20,000 persons congregate in the fair to have a dip in the holy water of river Banas.

Savariyaji-ka-Mela : This fair is held at Mandpiya village in tehsil Bhadesar on Bhadrapad shukla 11 annually. Approximately 1.25 Lac persons congregate in the fair. It has an idol of Lord Krishna in black stone. The place is served by a regular bus service.

Kalkaji –Ka- Mela : It is a religious fair and is held on Chittaurgarh fort on Vaisakha Sudi 8 (April- May) when about 10,000 persons assemble and have a darshan of goddess Kalka Mata.

Gotameshwar Fair : This fair is organised at Achnera in tehsil of the same name on Vaisakha Sudi 15 (April – May) annually. About 10,000 persons participate in this fair.

Urs of Diwanji Shah : The Urs of Diwanji Shah is celebrated at Kapasan annually. The month of its celebration varies according to the Muslim calendar. There is a tomb of Diwan Shah. The Urs day starts with mass prayer and the holy kuran is recited. Nearly 2,000 Muslims congregate on this occasion.

Among the other important fairs held in the district, mention may be made of Bhanwar Mata-ka-Mela and Mahadeoji-ka-Mela at Chhoti Sadri, Sheetla Ashtami at Chittaurgarh, and Kotri, Shivaratri at Matasara, Rupaji Karmalji ka Mela at Begun etc.

As in other districts of the State, the principal Hindu festival are Holi, Diwali, Dusshera, Gangaur, Sheetla Ashtami, Raksha Bandhan, Basant Panchami, Makar Sankranti. The chief Muslim festivals are Muharram, Bara-wafat, Idul-fiter, Idul-Zuha, Shab-e-rat and Ramzan.

PLACES OF RELIGIOUS, HISTORICAL OR ARCHAEOLOGICAL IMPORTANCE IN VILLAGES AND PLACES OF TOURIST IMPORTANCE

Following places are of great interest in the district:

The town is famous for its fort which has witnessed in the past some of the bloodiest battles in history, three great ‘Sakas’ and some of the most heroic deeds of valour. The Chittaurgarh fort is quit old one and it is difficult to ascertain the date when it was built. The most prominent monument on the hill is the ‘Jai Stambh’ or the tower of victory built by Maharana Kumbha. Another tower, ‘Kirti Stambh’(tower of fame), is covered with sculptured ornamental designs and is dedicated to Adinath, the first of the Jain Tirthankara. The 22 meters high tower is covered with figures from Jain Pantheon. Within the fort,

there is a museum which preserves sculptures from the fort temple and other buildings. Besides, the 'Gau muka' spring, Kalika Devi Temple. Rani Padmani's Palace, Rawal Ratan Singh's Palace, the house of Phatta and Jaimal, the temple of Kumbha Shyam dedicated to Varah (incarnation of Vishnu) and the temple of Mira Bai are the other places worth seeing within the fort. Around the Mira Bai temple is an open colonnade with dainty pavilions on all corners. Rana Kumbha Palace in the fort is an attractive building typical of Rajput architect. Within it are the elephant and horse stables and Shiva Temple. 'Jauhar's is also said to have been performed here in one of these underground cellars.

In Chittaurgarh town, other important places are Sainik School and Birla Cement Works. The Dargaha of the Saint Chalpishah also attracts devotees during Urs when a fair is held here.

CENSUS CONCEPTS

Building: A 'Building' is generally a single structure on the ground. Usually a structure will have four walls and a roof. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, work sheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence etc. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Pucca houses: Houses, the walls and roof of which are made of permanent materials. The material of walls can be anyone from the following, namely, Stones (duly packed with lime or cement mortar), G.I/metal/asbestos sheets, Burnt bricks, Cement bricks, Concrete. Roof may be made of from any one of the following materials, namely, Machine-made tiles, Cement tiles, Burnt bricks, Cement bricks, Stone, Slate, G.I/Metal/Asbestos sheets, Concrete. Such houses are treated as Pucca house.

Kutcha houses: Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, Unburnt bricks, bamboos, mud, grass, reeds, thatch, plastic /polythene, loosed packed stone, etc. Such houses are treated as Kutcha house.

Dwelling Room: A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other

habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census house is used as a shop or office, etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census House : A 'census house' is a building or part of a building used or recognized as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both. If a building has a number of Flats or Blocks/Wings, which are independent of one another having separate entrances of their own from the road or a common staircase or a common courtyard leading to a main gate, these are considered as a separate Census house.

Village: The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area: The data in the census are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. The urban area comprises two types of towns viz; statutory towns and Census towns. In the Census of India 2011, the definition of urban area adopted is as follows:

(a) Statutory Towns: All places with a municipality, corporation, cantonment board or notified town area committee, etc. is known as statutory towns.

(b) Census Towns: All other places satisfying the following three criteria simultaneously are treated as Census Towns.

- i) A minimum population of 5,000;
- ii) At least 75 per cent of male working population engaged in non-agricultural pursuits; and
- iii) A density of population of at least 400 per sq. km. (1,000 per sq. mile)

For identification of places which would qualify to be classified as 'urban' all villages, which is, as per the 2001 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account. In addition the above stated towns, urban areas also constitutes of OGs which are the parts of UAs.

Urban Agglomeration: An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together with or without urban outgrowths of such towns. In some cases, railway colonies, university campuses, port areas, military camps etc.; may come up near a statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may qualify to be clubbed with the existing town as their continuous urban spread (i.e., an Out Growth). Each such town together with its outgrowth(s) is treated as an integrated urban area and is designated as an 'urban agglomeration'. For the purpose of delineation of Urban Agglomerations during Census of India 2011, following criteria has been adopted:

- (a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and
- (b) The total population of an Urban Agglomeration (i.e. all the constituents put together) should not be less than 20,000 as per the 2001 Census. In varying local conditions, there were similar other combinations which have been treated as urban agglomerations satisfying the basic condition of contiguity.

Out Growth (OG): The outgrowth is a viable unit such as a village or a hamlet or an enumeration block and clearly identifiable in terms of its boundaries and location. While determining the outgrowth of a town, it has been ensured that it possesses the urban features in terms of infrastructure and amenities such as Pucca roads, electricity, taps, drainage system for disposal of waste water etc., educational institutions, post offices, medical facilities, banks etc. and physically contiguous with the core town of the UA.

City: Towns with population of 100,000 and above are called cities.

Household: A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated

as a separate household. The important link in finding out whether it was a household or not was a common kitchen/common cooking. There may be one member households, two member households or multi-member households.

Institutional Household: A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, observation homes, beggar's homes, jails, ashrams, old age homes, children homes, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2011, it was specifically mentioned that this category of households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household :Households who do not live in buildings or census houses but live in the open or roadside, pavements, inhumane pipes, under flyovers and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Language and Mother tongue: As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person. Mother tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate: A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate: Literacy rate of the population is defined as the percentage of literates in the age-group seven years and above. For different age-groups the percentage of literates in that age-group gives the literacy rate.

Educational level: The highest level of education a person has completed.

Work: Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. The main point to note is that the activity should be economically productive. Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker: A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker: A person who worked for 3 months or less but less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non-worker: A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator: For purposes of the Census, a person is classified as cultivator if he or she is engaged in cultivation of land owned or from government or from private persons or institutions for payment in money, kind or share. Cultivation also includes effective supervision or direction in cultivation. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the plantation crops like- tea, coffee, rubber, coconut and betel nuts (areca). The workers engaged in Plantation crops are recorded under "other workers".

Agricultural labourer: A person who works on another person's land for wages in cash or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker: Household industry is defined as an industry conducted by one or more members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. The activity relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker: A person, who has been engaged in some economic activity during the last year of reference period but not as a cultivator or agricultural labourer or worker in Household Industry. The type of workers that come under this category include all government servants, municipal employees, teachers,

factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In fact, all those workers other than cultivators or agricultural labourers or household industry workers are 'Other Workers'.

Work participation rate: Percentage of Workers (Main + Marginal) to total population.

Population density: Population density is the number of persons inhabited per square kilometer of the area.

Age: Age is measured in terms of the completed number of years.

Sex Ratio: Number of females per 1,000 males in population.

NON-CENSUS CONCEPTS

Civic status of urban units: Civic Status of a town/city is determined on the basis of Civic Administrative Authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/Municipal council, Municipality etc.

Size class of U.A./town: Size-class of U.A./Town is based on the population size of the U.A./City/Town.

U.A.s/Towns with 100,000 and above population is classified as Class I U.A.s/ Towns. Towns with 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum area: The Slum Areas (Improvement and Clearance) Act, 1956, which was enacted by the Central Government defined slums as (a) Areas where buildings are in any respect unfit for human habitation; or (b) are by reasons of dilapidation, overcrowding, faulty arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city :The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cutoff point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and

employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 million and above population have been treated as Mega cities and the same criterion of population has been adopted in 2011 census.

CONCEPTS USED IN VILLAGE DIRECTORY AND TOWN DIRECTORY OF DCHB:

1. Educational Amenities:-The type of different educational facilities available in the village is given in numbers. Government and private educational facilities / institutions are considered for this-purpose. If there are composite schools like Middle schools with Primary classes, or Secondary schools with middle classes, these are included in the number of Primary and Middle schools respectively. For example, if in a village there are two Primary schools and one Middle school with primary classes, the number of Primary schools in the village are given as three and that of Middle school as one even though there may be only three educational institutions. So also in case of Secondary schools. For better understanding, the distinctiveness of different types of schools is depicted hereunder:

1.1 Pre-primary (PP): Now-a-days, the children are sent to schools at a very early stage. Lot of pre-primary schools, private schools in particular, has come up in villages and towns. These may or may not be recognized by the competent authorities. Even many Secondary schools have classes starting from preprimary level. Pre-primary classes include Nursery, K.G., Pre-basic, Play school, etc.

1.2 Primary School (P): Schools providing education from Standard 1 and upward up to and inclusive of Standard V are classified as Primary Schools.

1.3 Middle School (M): Schools providing education from Standard VI and upward up to and inclusive of Standard VIII are classified as Middle Schools. A School with Class 1 to VIII is treated as two units, i.e. one Primary School and one Middle School.

1.4 Secondary School (S): Schools providing education from Standard IX and upwards up to and inclusive of Standard X are classified as Secondary Schools. A composite school with 1 to X standard is treated as three separate units and counted separately under the categories of Primary School, Middle School and Secondary School.

1.5 Senior Secondary School (SS): Schools and colleges that provide education for Standards XI and XII and first and second year of the Pre-University Course fall under this category. There are Senior Secondary Schools with Standard I and upwards up to Standard XII.

1.6 Degree College:

(i) Arts/Science/Commerce: These are all educational institutions that provide post-PUC level education leading to University degree/diploma in any subject or

combination of subjects and also post-graduate levels of education. The college offering courses in Arts, Science or Commerce either separately or in combination are covered under this category.

(ii) Engineering College (E): It is a graduate/post-graduate degree college providing Bachelor of Engineering (BE) or Bachelor of Technology (B. Tech.) or post-graduate engineering degrees like M.Tech.

(iii) Medical Colleges: These are graduate/post-graduate degree colleges providing MBBS or equivalent degree in alternative medicine like Ayurveda, Unani, Homeopathy etc. or post-graduate medical degrees like M.D. or equivalent in the above branches of medicine.

1.7. Management College/ Institute (MI): It offers courses like Diploma in Management, Post-Graduate Diploma in Management, Masters of Business Administration (MBA) and specializations in different disciplines of Management like Marketing, Human Resources Development (HRD) etc.

1.8. Polytechnic (Pt): An Institution providing certificate/diploma (not equivalent to degree) in any technical subject like engineering, vocational courses like embroidery, fashion designing etc. It may be both Government and Private.

1.9. Vocational School/ITI: It is a vocational training institute imparting trainings in specific fields acquiring necessary skill, which will make the trainees employable or create them opportunities of self-employment. Trainings offered by Industrial Training Institutes (ITI) fall under this category.

1.10. Non-formal Education/Training Centre (NFTC): Non-vocational education centers, established by the Central and State Governments provide educational facilities to the interested persons irrespective of educational qualification, and age. These education centers are open to all.

1.11. Special School for Disabled: There is Government and Government recognized institutions/organizations engaged for providing education to different groups of disabled persons.

2. MEDICAL FACILITIES:

2.1 Hospital-Allopathic and Hospital-Alternative medicine: A hospital is an Institution, where sick or injured are given medical or surgical care. Bed strength differs from hospital to hospital ranging from 31 to 500 depending upon whether these are sub-district, sub-divisional or district hospitals. If there are hospitals providing facilities under different systems of medicines such as, Allopathy, Ayurveda, Unani and Homeopathy etc., these details are given separately.

(a) Allopathy: The system of medical practice, which treats disease by the use of remedies which produce effects different from those produced by the disease under treatment.

(b) Ayurveda: Ayurveda means 'Science of life'. The philosophy of Ayurveda is based on the theory of Pancha Mahabhootas (Five elements) of which all the objects and living bodies are composed of. The combinations of these five elements are represented in the form of Tridosha: Vata, Pitta and Kapha. These three 'doshas' are physiological entities of living beings. Ayurveda developed into eight distinct specialities, i.e., Internal Medicine, Pediatrics, Psychiatry, Eye and ENT, Surgery, Toxicology, Geriatrics and Science of virility. Two types of treatments, Preventive and Curative, are given in Ayurveda.

(c) Unani: Treatment of Unani consists of three components, namely, preventive, promotive and curative. Unani system of medicine has been found to be efficacious in conditions like Rheumatic Arthritis. Jaundice, Filariasis, Eczema, Sinusitis and Bronchial Asthma. For the prevention of the disease and promotion of health, the Unani System emphasizes six essentials: pure air, food and water, physical movement and rest, psychic movement and rest, sleep and wakefulness and retention of useful materials and evacuation of waste materials from the body.

(d) Homoeopathy: Treatment in Homoeopathy, which is holistic in nature, focuses on an individual's response to a specific environment. Homoeopathic medicines are prepared mainly from natural substances such as plant products, minerals and animal sources. Homoeopathic medicines do not have any toxic, poisonous or side effects. Homoeopathic treatment is economical as well and has a very broad public acceptance.

2.2 Community Health Centre (CHC): Community Health Centers are designed to provide referral health care for cases from PHC and those in need of specialist health care approaching the CHC directly. 4 PHCs are included under each CHC thus catering approximately 80,000 populations in tribal/hilly areas and 1, 20,000 populations for plain areas. CHC is a 30- bedded hospital providing specialist care in Medicine, Obstetrics and Gynecology, Surgery and Pediatrics.

2.3 Primary Health Centre (PHC): A Primary Health Centre is the first contact point between a village community and the Government medical officer. A PHC covers a population of 20,000 in hilly, tribal or difficult areas and 30,000 populations in plain areas with 4-6 indoor/observation beds. It acts as a referral unit for 6 sub-centers. It has a medical officer and para medical staff.

2.4 Primary Health Sub- Centre (PHS): A Primary Health Sub-center is the first contact point between the primary health care system and the community. As per the population norms, one PHS is established for every 5,000 population in plain areas and 3,000 populations in hilly/ tribal/ desert areas. Each PHS has a sanctioned strength of one male and one female health worker.

2.5 Maternity and Child Welfare Centre (MCW): It provides pre-natal and post-natal services for both mother and child. The services include regular check-up of pregnant women, giving folic tablets, counseling, delivery, immunization of children with check-up etc.

2.6 TB Clinic (TBC): The diagnosis and treatment of TB are functions of the general health services and hence it is a part and parcel of Primary Health Care. Specialized units such as the District Tuberculosis Centre (DTC) act as referral centers. TB clinics are established by the Government of India under the National Tuberculosis Control Programme and implemented through a network of DTC. The DTC is the nodal point for TB control activities in the district and it also functions as a specialized referral center. The functions of sub-district level Tuberculosis Unit (TU) are implementation, monitoring and supervision of TB control activities in its designated geographical areas.

2.7 Health Centre: Clinic where medicine and medical supplies are dispensed. It has no in-patient facility. A clinic (or an outpatient clinic) is a small private or public health facility that is devoted to the care of outpatients, often in a community, in contrast to larger hospitals, which also treat inpatients.

2.8 Dispensary: Place where patients are treated and medicines provided but with no in-patient facility. Immunizations, MCH Services and sometimes pathological tests are carried out here. It may be of allopathic or any alternative medicine.

2.9 Veterinary Hospital: Mostly run by the State Government or local body for treatment and preventive measures against diseases of domestic animals like cows, buffaloes etc. in rural areas.

2.10 Mobile Health Clinic: These are Mobile vans well equipped with a range of health services to villages located far away from the CHCs, PHCs or any public health sources. The vans visit villages on designated days to deliver the health care services. The services generally offered are OPD, ante-natal and post-natal, B.P. examination, X-ray, ECG, Immunization, First Aid etc.

2.11 Family Welfare Centre: Check-up and counseling is provided to the pregnant and married women regarding small family norm and devices for having a small family. Temporary and permanent contraceptive devices are provided here.

2.12 Nursing Home: A nursing home is a long-term care facility licensed by the state that offers 24-hour room and board and health care services including basic and skilled nursing care, rehabilitation and a full range of other therapies, treatments and programs to old and sick people. The difference between a hospital and a nursing home is that a nursing home gives importance to convalescence from a disease while a hospital gives medical treatment for the disease.

2.13 Medicine Shop: A shop which sells drugs and medicines of any system of medicine viz. allopathic, homeopathic, ayurvedic or unani medicines, is considered as a medicine shop. Sometimes some shops and Paan shops also keep ordinary medicines, like Crocin, Burnol etc. These shops are not taken as medicine shops.

3. Drinking water: The following are the main source of drinking water facility (ies) available in the village.

3.1 Tap Water-treated: This source of drinking water refers to a source of drinking water which is provided to the villagers through pipes within their premises or to the villagers through common taps (public taps/community water points) by the Government departments, local bodies, panchayats, public or private estate agencies, etc. after treatment. Such a source is treated as 'Tap water from treated source'.

3.2 Tap Water-un-treated: If the villagers are drawing drinking water through pipes either directly from a well or bore well or after pumping the well or tube well water, or the water is supplied through pipes to the households of the village or through public taps without treatment. Such a source is treated as 'Tap water from un-treated source'.

3.3 Covered Well (CW): A well that is (1) covered on sides from run-off water (i.e., excess water from rain, snowmelt or other sources flows over the land) through a wall lining or casting that is raised above ground level on a platform that diverts spilled water away from the well and (2) covered so that bird droppings and animals cannot fall down the hole. It is considered as covered well.

3.4 Un-covered Well (UW): A well which is (1) un-covered on sides from runoff water, (2) un-covered from bird droppings and animals; or (3) both.

3.5 Hand Pump (HP): Hand pump means where ground water is taken out manually by operating a hand pump.

3.6 Tube Well / Borehole (TW): Tube well denotes the ground water source from where ground water is taken out through electrical or diesel pump. Spring, River/Canal, Tank/Pond/Lark are self-explanatory.

4. Community Toilet Complex: Community Toilet may be constructed and maintained by Gram Panchayats or Private NGOs like Sulabh Shauchalaya or likes.

5. Rural Sanitary Mart or Sanitary Hardware Outlet (RSM): It is an outlet dealing with the materials, hardware and designs required for the construction of not only sanitary latrines but other sanitary facilities such as compost pit, washing platform and other sanitation and hygiene accessories required for individuals, households and the environment in the rural areas.

6. Community bio-gas or recycle of waste for productive use: Many of the solid wastes having economic values but put for disposal can be recycled for reuse. For example, food, cow dung, leaves, vegetable, paper, wood, plastics, old cloth etc. However, some of the wastes are not recyclable. These are carbon paper, thermo coal etc. When recyclable solid wastes are subjected to decomposition, bio-gas could be produced under favorable conditions. These systems of recycling may be there at the village level organized by Gram Panchayats with technical support from Governments or non-government organizations.

7. Communication and transport Facilities:

7.1 Post Office (PO): Self-explanatory.

7.2 Sub-Post Office (SPO): Sub-post office includes Extra Departmental Post Offices and those providing franchise postal services and also part time services in lieu of some honorarium. The limited postal services include sale of stamps, receipt of letters and money orders and also distribution of letters.

7.3 Post & Telegraph Office (PTO): Telegraph office is set up by the Government to enable people to send or receive telegrams. If the phonogram facility is available (though the Telegraph office may not be equipped with Morse Code Transmitters), the village is considered to be having telegraph facility.

7.4 Telephones (landlines): If the village is having the Public Call Office (PCO) either run by the Post Office or by individuals or by a private shop, then the village is considered to be having telephone facility.

7.5 Public Call Office (PCO)/Mobile PCO: Self-explanatory

7.6 Mobile Phone Coverage: Mobile phones are now very common particularly in urban areas. Some villages by virtue of being in close proximity to the urban areas also enjoy the benefits of the mobile phone services. Even if a few villagers avail the services of mobile phones, then the village is considered to be having access to mobile phone.

7.7 Internet Cafes/Common Service Centers (CSC): If the village is having the facility of Cyber Cafes or shops owned by private individuals providing the facility of surfing of the internet, then the village is considered to be having access to internet/cyber cafe facility. Government of India formulated the scheme of CSC with the vision of providing all government services in an integrated manner at the door step of the citizen at an affordable cost even in the remotest corners of the country through a combination of it based as well as non-IT based services.

7.8 National Highway (NH): These are main highways running through the length and breadth of the country. Each NH is numbered like NH-1, NH-2 for easy identification.

7.9 State Highway (SH): These are roads of a state linking district headquarters and important cities within a State and connecting them with NHs or Highways of the neighboring States.

7.10 Major District Roads (MDR): These are important roads within a district, serving areas of production and markets and connecting these with each other or with the main Highways.

7.11 Other District Roads (ODR): These are roads serving rural areas of production and providing them with outlet to market centers, taluka headquarters, block development headquarters or other main roads.

7.12 Village Road: The approach to village refers to the state of road etc., leading to the village. This is to see whether the village is approachable both in fair and foul weather, and whether it is inaccessible only for some time in the year.

7.13. Black-Topped (Pucca) Road (BTR): A road provided with a bituminous surfacing.

7.14 Gravel (Kuccha) Road (GR): A road constructed using well compacted crushed rock or gravel material (coarse sand, small stones), which is fairly resilient and does not become slippery when wet.

7.15 Water Bound Macadam (WBM): This is the road layer made of crushed or broken mixture of sand and rock fragments mechanically interlocked by rolling and voids filled with screening and binding material with the assistance of water.

7.16 Foot Path (FP): A trodden path for the use by pedestrians and in some cases bicycles. The Foot Paths are not suitable for vehicular traffic except bicycles in some cases. Most of the interior/forest villages are connected by Foot Paths.

8. Banks and Credit Societies: - Banking facility means a place where a person can operate a bank account.

8.1 Commercial Bank (CB): These may be banks wholly owned by the Government of India. or by Indian or Foreign Companies.

8.2 Cooperative Banks (Coop. B): A co-operative bank is a financial entity which belongs to its members, who are at the same time the owners and the customers of their bank. Cooperative banks are often created by persons belonging to the some local or professional community or sharing a common interest. These banks are registered under the Cooperative Societies Act. The cooperative banks are regulated by RBI and are covered by the Banking Regulations Act, 1949.

8.3 Agricultural Credit Society (ACS): Major objectives of the ACS are to supply agricultural credit to meet the requirements of funds for agricultural production, the distribution of essential consumer commodities, the provision of storage and marketing facilities and for light agricultural implements and machinery.

8.4 Non-Agricultural Credit Society (NCS): These societies include consumer cooperative societies and also credit cooperative societies of certain categories of persons like teachers, health workers, etc.

9. Miscellaneous Facilities:

9.1 Self-help Group (SHG): Self-Help Groups are groups of between 10-25 women created by either NGOs or under the SGSY (Swarnjayanti Gram Swarozgar Yojana) for the purposes of meeting local credit needs. They are sometimes called Mahila Mandals in villages.

9. 2. Public Distribution System (PDS) shop: The shops through which some essential commodities are sold by the government at subsidized rates. They may also be known as ration shops and control shops.

9.3. Mandis/Regular Market: These are those clusters of shops with or without fixed premises which are open on at least six days a week and opens at least from morning hours to dusk.

9.4. Weekly Haat: These are those clusters of shops with or without fixed premises which are open once a week.

9.5. Agricultural Marketing Society: It is a common platform to analyze the issues among all the individuals and institutions in the field of agricultural marketing.

9.6. Nutrition Centre: Integrated Child Development Services (ICDS): The Integrated Child Development Services (ICDS) Scheme set up by the Government of India with the objective of providing following package of services to the children under 6 years and pregnant and lactating mothers in villages such as; Immunization, Health Check-up, Referral Services, Pre-school Non-formal Education and Nutrition & Health Education.

9.7. Anganwadi Centre: Each center under the ICDS scheme is run by an Anganwadi Worker. One Anganwadi worker is appointed for specified population of the village. They are basically local women. They are assisted by Anganwadi helper. They provide pre-school non-formal education at the Centre and provide food to the children.

9.8. Accredited Social Health Activist (ASHA): ASHA is a health activist in the community who will create awareness on health and its social determinants and mobilize the community towards local health planning and increased utilization and accountability of the existing health services. She would be a promoter of good health practices. She will also provide a minimum package of curative care as appropriate and feasible for that level and make timely referrals. She will act as a motivator of different types of health related activities. Unlike ANM, she will not be involved in any clinical activities like immunization.

9.9. Sports Club/Recreation Centre: Indoor and out-door games are arranged by the Club and activities like wrestling, Judo Karate etc. are also done there.

9.10. Cinema/Video Hall (CV): If a regular cinema house licensed by Government is available, then the town/village is considered to be having the facility of Cinema Hall. Video hall owners screen films in their own or hired premises.

9.11. Public Library: Books are kept there which can be accessed by the public on loan basis. These may be sponsored by Government or Local Body or Panchayat or any influential person. Free service or nominal charges are made for using the facility.

9.12. Public Reading Room: Here the public may read newspapers and magazines. These may be sponsored by Government or Local Body or Panchayat or any influential person.

9.13. Newspaper Supply: The availability of the Newspaper(s), both in English or vernacular, in the village is considered to having the said facility.

10. Availability of Electricity/Power. If power is actually available, whatever may be the form of its use, it is indicated affirmative. If the village is having electricity for domestic purposes and the residents are using the same for domestic use, then it is considered that domestic power supply is available. If the electricity authority has not given domestic supply to the households on their request and people are using unauthorized electricity either by stealthily or misuse the supply meant for agricultural or industrial purposes, then it is not considered as availability of electricity for domestic purposes. However, if the village goes out of power due to temporary technical problems such as, transformer failures, theft of electrical equipment, etc., it is considered that electricity is available. Supply of electricity is considered available even when there is a temporary ban on new domestic connections. Connections to

residential houses, bungalows, clubs, hostels and hospitals run on non-commercial basis, charitable, educational and religious institutions are included in the domestic category.

10.1 Power Supply for domestic use: This category includes electricity used only for domestic consumption.

10.2 Power supply for agricultural use: This category includes all electricity connections given to the farmers for conducting various agricultural activities including irrigation.

10.3 Power supply for commercial use: This category includes electricity connections given for workshops, industries etc. or for any commercial purposes.

10.4 Power supply for all uses: This category includes electricity connection is available for domestic use, agricultural use, and for any commercial purposes.

11. Land Use Pattern: The land use area of the villages is given in hectares. The land use pattern in the Village Directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry has recommended the maintenance of records of land use pattern under the 9 categories as indicated in the Village Directory.

12. System of drainage: Generally, by drainage system, we mean the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in towns, which are not provided with such underground sewerage system, it is mentioned whether it has open drainage system. There may be possibility of the town having both closed as well as open drainage systems.

13. Type of latrines: The data on various types of latrines both public and private together are collected. The three types of latrines considered here are, Pit Latrine, Flush/Pour Flush Latrine and Service Latrine.

(i) Pit System: The latrines are attached to the pit that is dug into the ground for the reception of night soil, are reckoned as pit latrine.

(ii) Flush/pour flush: A flush latrine uses a cistern or holding tank for flushing water and has a water seal, which is a U-shaped pipe, below the seat or squatting

pan that prevents the passage of flies and odours. A pour flush latrine uses a water seal, but unlike a flush latrine, a pour flush latrine uses water poured by hand for flushing (no cistern is used). **(iii) Service:** Type of latrine from where night soil is removed manually by scavengers. All other types of latrines are covered under “Others” category.

14. Protected Water Supply- Source and capacity of Storage system: There are various sources of water supply and its storage system in the town.

14.1 Service Reservoir: A service reservoir is a water storage container that holds clean water after it has been treated in a water plant, and before it is piped to the end users. These containers are covered, and are designed to keep the water safe from contamination. Their main purpose is to provide a buffer within the water supply system so that water supplies can be maintained across periods of varying demand.

14.2 River Infiltration Gallery: Infiltration Galleries are capable of supplying large quantities of water, and are used where wells are unable to supply water needs, i.e. where an impermeable rock barrier affects well efficiency, or where surface water sources are too shallow for intake screens. Infiltration galleries are one or more horizontal screens placed adjacent to (on-shore), or directly underneath (bed-mounted), a surface water source.

14.3 Bore Well Pumping System: A bore well is a well of 6" to 12" in diameter drilled into the earth for retrieving water. The depth of a bore well can vary from 50 feet to 3000 feet. Water is pumped out to surface through electricity/generator.

14.4 Pressure Tank: Tank that is used to ensure consistent water pressure and for storage of water. Usually located in basement of house but sometimes (in older settings) located in well pit.

15. Road lighting (Points): Road lighting means the number of street lights that are maintained in the town.

16. Orphanage Home: Orphanage is the name to describe an institution devoted to the care of orphans—children whose parents are deceased or otherwise unable to care for them. Parents, and sometimes grandparents, are legally responsible for supporting children, but in the absence of these or other relatives willing to care for the children, they become a ward of the state, and orphanages are a way of providing for their care and housing.

17. Working women's hostel: These may be recognised or non-recognised by any public authority. The data on number of working women's hostels available in the town are collected with number of seats.

18. Old Age Home: There are two types of Old Age Homes in India. One is the "Free" type which cares for the destitute old people who have no one else to care for them. They are given shelter, food, clothing and medical care. The second type is the "Paid" home where care is provided for a fee. Nowadays, such "Retirement" homes have become very popular in India and they are well worth considering.

19. Stadium: A stadium is a place, or venue, for (mostly) outdoor sports, concerts or other events, consisting of a field or stage partly or completely surrounded by a structure designed to allow spectators to stand or sit and view the event.

20. Auditorium/Community Hall: These are the places where meetings, social functions etc. are organised.

The percentage of workers to total population of urban areas is significantly quite low being only 35.94 percent as compared to that of rural areas of the district being 55.61 percent. Here too, the percentage of workers engaged in four economic categories is just the reverse as compared to rural workers where majority i.e. 83.25 percent of the total urban workers are as 'other workers' followed by 7.07, 5.05 and 4.64 percent as cultivators, agricultural labourers and household industry workers respectively.

Almost similar trend is visible in all the municipal towns except in Rawatbhata (M) where the percentage of cultivators is lower than that of household industry workers.

Sex wise percentage of male workers as other workers is higher than that of female other workers 88.24 and 66.03 percent respectively. On the other hand, percentage of female cultivators 14.36 percent is much higher than that of male 'cultivators' 4.95 percent at the district level for urban areas.
